Principal:

Dr. Lata Menon

In a safe and caring environment, we inspire and prepare young people to achieve their potential. Our college educates the whole mind, body and spirit of a student. We focus on each student's needs and talents. Our college conducts a short intensive Bridge Course for the First Year Students as soon as the semester commences. Students having minimal or no background of the subject/s offered in their course are aided by our teachers to bridge the gap between their previous knowledge base and the required current knowledge base. The students are identified those who did not have a previous background and (or) found the subject difficult to comprehend. The objective of the course is to analyze their level of understanding of the subject before the start of the curriculum and bridge the gap by enhancing their knowledge and bring them on par with the other students of their class.

We recognize that all of our students have different talents and we strive to ensure that every student has an equal opportunity to find and develop the talents they possess. They are challenged in the classroom by pushing them to think beyond the obvious.
