by Mr. Shreejith Nair

Module 1: Introduction To Data

- What is data?
- Types of data
- Sources of data
- Data collection methods - google form (survey form collect the primary data and analyze it, Perform suitable analysis of given secondary data)
- Strategy for data analysis
- Creating datasets, open source data - UCI repositories, kaggle, data world etc.
- Introduction to MS Excel
- History of excel, basics understanding of Excel GUI
- Data types of excel, basic formulas
- data validation - on all types - numeric, date, string
- Keypad shortcuts of excel
- Statistics of data
- conditional formatting on cells, color scheming on cells
- Applying IF-ELSE on data

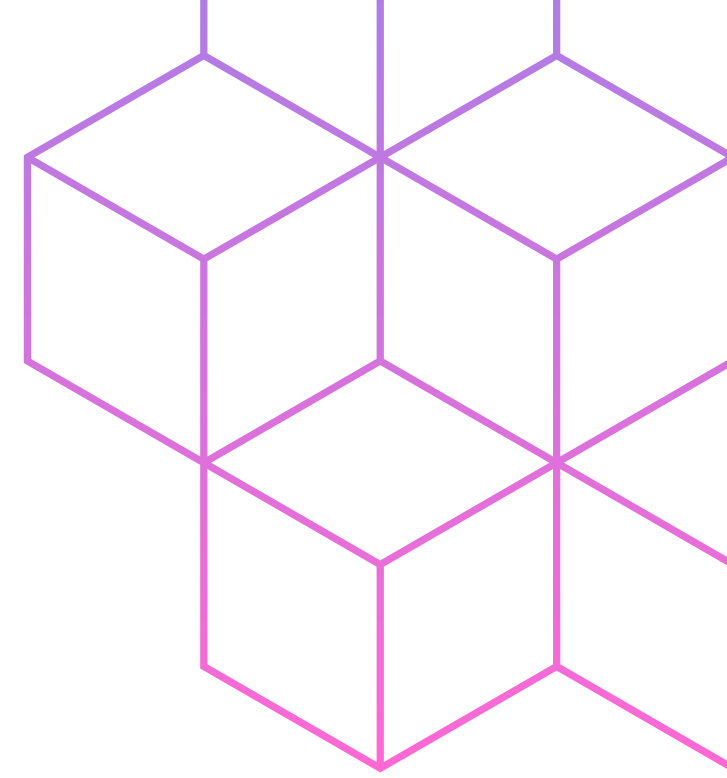

Module 2: Analyzing Data using Pivot, graphs and Dashboard

- Introduction to Google Spreadsheets
- basics understanding of Google Spreadsheets GUI
- Applying all the basics of excel (covered in previous module) on Google Spreadsheets
- (Data validation, conditional formatting on cells, color scheming on cells, IF-ELSE)
- Understanding types of graphs and its uses
- Creating simple graphs in Excel (Line, bar, pie, scatter, histogram)
- Creating Pivot tables and charts
- Creating a Slicer
- Dashboarding in Excel
- Thermometer, Pareto, Speedometer charts, Funnel chart, interactive charts
- How to present an Analysis Report (story making of analysis)
- How to make analysis Presentation

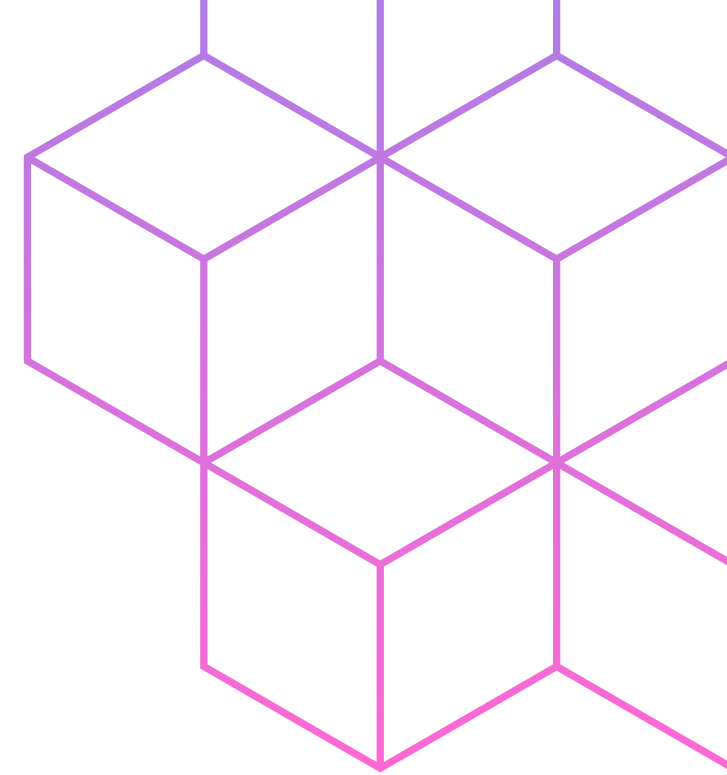

Module 3: Data Analysis using Statistics

- Moving Averages
- Mean, Median, Mode, Variance, Standard Deviation
- Covariance
- Correlation
- Regression
- ANNOVA
- Hypothesis Testing
- Applying Statistics using Excel

Module 4: Data Analysis using Power BI

- Introduction to Power BI
- Why Power BI, Power BI vs MS Excel
- Understanding the GUI of Power BI
- Data Cleaning in Power BI
- Power BI query Editor
- Data Transformation
- Visualization - creating all types of graphs
- Creating interactive dashboards
- Premium and new graphs from MS Store
- A Power BI presentation

Report:-	<p>In the academic year 2022-23, the Programme of Data Science in association with the Internal Quality Assurance Cell (IQAC) has given an immense opportunity to the students of FY and SY to participate in the add-on course program titled “Data Analysis using Excel and Power BI”.</p> <p>There were a total of 29 participants who enrolled in the course. The duration of the course was 32 hours (16 days, Each session of 2 hrs) which started on 6th Dec 2022.</p> <p>The course consisted of four modules aimed at equipping students with skills in data analysis. The modules included Introduction to Data, Analysing Data using Pivot, Graphs and Dashboard, Data Analysis using Statistics, and Data Analysis using Power BI.</p> <p>Module 1: Introduction to Data by Mrs. Anita Mhatre</p> <p>The first module introduced students to the basics of data. The course covered topics such as types of data, data collection methods, and data analysis techniques. Students were also introduced to data visualization tools and techniques such as charts, graphs, and maps.</p> <p>Module 2: Analysing Data using Pivot, Graphs and Dashboard by Mr. Sadiq Shaikh</p> <p>The second module focused on data analysis using pivot tables, graphs, and dashboards. The course covered topics such as sorting and filtering data, creating pivot tables and charts, and using dashboards to present data. Students were also introduced to Microsoft Excel and Google Sheets for data analysis.</p> <p>Module 3: Data Analysis using Statistics by Ms. Akanksha Rawat</p> <p>The third module focused on data analysis using statistics. The course covered topics such as probability, hypothesis testing, regression analysis, and data modelling. Students were introduced to statistical software such as SPSS, R, and SAS for data analysis.</p> <p>Module 4: Data Analysis using Power BI by Mr. Shreejith Nair</p>

The fourth and final module focused on data analysis using Power BI. The course covered topics such as data modelling, data visualization, and report creation using Power BI. Students were also introduced to DAX formulas and functions for data analysis.

After successful completion of the course on 23rd Jan, exams were conducted on 28th March 2023 to test students' understanding of the course material. The exams consisted of multiple-choice questions. The exams were designed to assess students' knowledge of data analysis techniques and their ability to apply these techniques to real-world problems.

Objectives:

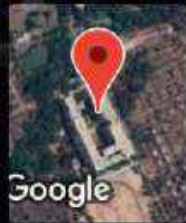

- Develop in depth understanding of the key technologies in Business Analytics
- Practice problem analysis and decision-making
- Gain practical, hands-on experience with Spread Sheets, statistics and Visualization tools.

Outcome of the course:

- Students will be able to apply ethical practices in everyday business activities and make well-reasoned ethical business and data management decisions.
- Students will be able to find solution to the real world business problems, communicate findings, and effectively present result.
- Students will be able to demonstrate knowledge of statistical data analysis techniques utilized in business decision making.
- Students will be able to disparate datasets, Transform, Clean the data and Create Powerful Visuals to find an insights within an organization's Data
