<b>Report:-</b>	<p>To mark <b>World Intellectual Property Day</b>, the <b>Faculty of Arts</b> in association with the <b>Internal Quality Assurance Cell (IQAC)</b> and <b>Institution's Innovation Council (IIC)</b> of Pillai HOC College of Arts, Science and Commerce, Rasayani organised a one day webinar on IPR titled '<b>Copyright: Challenges, Scope and Procedures</b>' for all teaching and non-teaching staff members on April 26, 2023.</p> <p>The resource person, Dr. Betkar M M (Principal, Shri Kumarswami Mahavidyalaya, Ausa, Latur) is an expert of Intellectual Property Rights &amp; Patent Filing. The webinar's goal was to educate faculty, students, and the research community on intellectual property rights. In his session, he explained the importance of copyright, how to get a copyright, and when to go for copyright. He demonstrated the process of filing the copyright. The resource person delivered a thought-provoking address to the gathering about the various copyright issues using the virtual platform to interact with the participants.</p> <p>"Copyright is a form of intellectual property since it safeguards the creator's original concept. Software, artwork, a design, an image, or a journal paper including research could all be examples of the idea. In contrast to a patent, copyright requires no expenditure to acquire and uphold it. Its validity is interestingly 60 years after the author's passing. Academicians are very creative and have novel ideas, but sadly, they place less value on copyrights. On the other hand, businessmen understand how crucial copyrights are. If the author</p>

has presented the same idea differently than other people, such other presentations may also be protected by copyright. Copyright is an expression, not an idea.” he said.

It was followed by a detailed Q/A session. The event ended with a formal vote of thanks.
