Some played garbha to entertain them. This was indeed a great experience one could have fetched in their entire life. There were some goods in the form of sugar, detergent, apples and dry fruits given to them. At the outset the committee acknowledges the teaching fraternity who helped monetarily to make this process happen. This was a very small initiative that the committee took to encourage the young minds to tilt towards the benevolent act of servitude towards society. The committee promises to come up with more such activities in the near future too.</p>

The primary objective of this report is promoting the concept of zero discrimination within their communities to educate the community about the detrimental effects of discrimination based on caste, religion, gender, ethnicity, and other factors. These campaigns utilize various mediums such as workshops, street plays, posters, and social media platforms to reach a wider audience.
